Guide introduction

This is the guide of the My Best Deal game, created by [@Piotr King](#). You can find this game on [Patreon](#).

If you like the game, please consider to support the work.

Disclaimer! I do not take responsibility for any error or fault regarding this guide. I try my best to cover everything in the game, but as I'm a human I might make mistakes. Every mistake will be corrected if anyone report it to me via [PM here](#).

As I'm not a native English speaker, sorry for any spelling/language mistake.

Game Introduction

In this game you play as a man who... died. Good start right? But as the favour of the Goddess you'll get a new body and a new life. With some very familiar character around you.

This is a game beside and connected to the Dirty Pool, so as you'll see, you'll meet some familiar character as well as new ones. Let's make the best out of it.

Keep an eye on the gallery, in which you can unlock the scenes and relive them if you want. To make the searching a bit more easy, there is a guide which you can use to get an idea what you need to do to achieve everything.

Walkthrough

This game has somewhat complex and quite a redundant code, so this guide seems like a little bit complicated. This guide won't fit here, so you have to follow the link below. I advise to download the pdf and use it that way, so you can zoom more and you can read everything.

But first let's see the legend of the most important parts regarding of this guide:

Start of the game as well as the end of the game (if that could happen) and end of the version too.

Gallery images can be unlocked at these. The text will say which image exactly.

The normal choices in the game, the text will show the text you can see in the game.

Major decisions. In the game they will appear as unique images, where you can select based on part of the image.

Relationship status changes. You can see which character and which way the relationship will change by the text on the label.

Lesser path choices. Could still affect the game.

Side notes.

Now that you know how to use the guide it's time to see it. If you find any mistakes there please let me know, so I can fix it.
